

Dicom Solutions

WE WORK ONE ON ONE TO WITH YOU TO UNDERSTAND YOUR NEEDS

The DD DICOM family of solutions is a suite of reliable PACS/RIS/CD and Teleradiology components that are truly affordable. Each of the PowerPACS components can be implemented in stages allowing healthcare providers the ease of transitioning to a digital image environment over a period of time instead of being overwhelmed with unnecessary information and cost.

STATE-OF-THE-ART FEATURES

A unique feature of our PowerPACS archiving software is its limitless storage capacity. Whether storing several gigabytes or even petabytes of data, you are assured quick and reliable access to all of your DICOM data and images within the same building or anywhere in the world using our WebViewer. Large networks of hospitals can share data across geographic regions transparently. When data is stored at one location, it is immediately accessible by all locations within your network. With the DD DICOM family of solutions the possibilities are endless.

Customized * Compliant * Cost Effective

- Complete DICOM Support
- Access Data From Anywhere
